

*Lunch Briefing at the 4th Session of the United Nations Environment Assembly (UNEA-4)*

## Learning to govern geoengineering: insights from different experiences on environmental governance

*The Carnegie Climate Geoengineering Governance initiative (C2G2) welcomes you to a lunchtime briefing to share and learn about the governance of geoengineering.*

**Date, time and location:**

**Wednesday 6<sup>th</sup> March 1-3pm**

VIP Lounge (*buffet lunch served during the event*)

This event will provide a space for organizations from across a variety of disciplines and geographies to share and learn from each other about successful approaches to global environmental governance challenges. It will provide a unique opportunity for cross-sectoral learning and discussion, and provide valuable insights for consideration in the context of the governance of geoengineering.

### Agenda and speakers:

**13:10–13:20 Welcome and Introduction:**

**Janos Pasztor**, Executive Director (C2G2)

**H.E. Mr Siim Kiisler**, President UNEA 4 (Estonia)

**Jian Liu**, Chief Scientist, Director Science Division (UNEP)

**13:20–13:40 What is geoengineering?**

**Michael Thompson**, Senior Outreach Manager (C2G2)

**13:40–13:50 Global environmental governance: challenges, opportunities and lessons learned**

**Arunabha Ghosh**, Executive Director (CEEW)

**13:50–14:30 Lessons from other contexts: examples of environmental governance from a range of contexts**

**Neth Daño**, Co-Executive Director (ETC)

**Maarten van Aalst**, Director, (Red Cross-Red Crescent Climate Centre)

**Jian Liu**, Chief Scientist, Director Science Division (UNEP)

**Charles Mwangi** (PACJA)

**14:30–15:00 Open discussion all participants**

*Moderator:* **Janos Pasztor**, Executive Director (C2G2)
